**This past year we experienced an increase in workers inflating their skills and experience (basically lying about what they can do) in order to secure H2A job in the US. Do not oversell yourself. It is unsafe to work on a farm in the US without necessary experience and can result in death. If you don't have the experience the farmer expects you to have based on information given, you will be dismissed. You will lose your investment in coming to the US. The US Employers only reimburse 50% of your airfare at 50% completion of the contract and the rest upon 100% completion. It never pays to deceive us or your future US Employer in order to get to the US. Work Abroad Network is passionate about securing positions for unskilled workers (non-farming workers) and also couples. We have great opportunities secured for 2019. H2A is not the only way to come and work in the USA. Help us help you and future placements by preserving the South Africans work force's reputation in the US and continue to grow the demand for reliable, honest hardworking South African workers to the US critical labor shortage. Rather undersell and overdeliver.**
